## How to Find the Routing and Bank Account Numbers of your Checking Account

Look at one of your checks to find your bank's **routing number**. It's a nine-digit number printed in electronic lettering at the bottom left-hand corner of each check. Your **account number** will be to its right.

Make sure you are using a check and NOT a deposit slip, since the numbers may not be the same.

When writing out your bank numbers, ignore any special characters that may look like this:
